Grievance Description	I have received Intimation 143(1) recently in which there was a mismatch between the TDS amount claimed and TDS considered for processing the refund in the order. The order stated that the reason for the mismatch is the FORM 26AS contains partial amount of TDS/TCS with respect to the TAN mentioned in schedule TDS1/TDS2/TCS. But whereas when I verified my form 26AS, i found that all the entries that i have claimed in my return are present with respect to the TAN mentioned. I am herewith attaching my 26AS that is exported on 10.09.2024 for your perusal and records . Please go through my issue and do the needful by considering those entries and process my return ASAP.
